

CLERKS REPORT – APRIL 2010

- Correspondence has been received from a resident thanking all concerned with regard to resolving the issues surrounding the withdrawal of Stagecoach Service 2A and more recently the introduction of improved schedules relating to the Preston/Tarleton service which now has an extended frequency.
- Planning application 2010/0027 requesting the withdrawal of Condition 15 to planning consent 2009/0079 The Maltings Longton has been refused as requested by this Council.
- Discussions continue with LCC with regard to parking issues in Longton. An agenda item sets out the current recommendations for this Council to consider.
- The bus stop markings in front of Scott's Newsagents and Post Office have caused some concern with regard to the extent of the markings of 17 metres. The Clerk was able to attend a meeting between the complainants and LCC and a compromise has been reached which will now reduce the markings by 3.5 metres which is considered more appropriate to the type of buses used and the needs of the retail establishment at the site.
